INTRODUCTION FROM THE LEADER OF LIVERPOOL CITY COUNCIL, COUNCILLOR WARREN BRADLEY

The City Council is proud of the work undertaken in our City by voluntary and community groups and social businesses. There is a long tradition of community involvement and service in Liverpool and we want to continue to support this. Many Liverpool citizens work tirelessly to meet the needs of the most disadvantaged and excluded residents.

The Community Resources Unit (CRU) Funding Programme 2008-2011 offers three year funding to over 70 diverse voluntary and community organisations both long standing and relatively new and this directory details all of them. The projects we fund are fully consistent with the Council's twin aims of empowering residents and developing communities. They are a testament to the strength and vibrancy of communities in the City who want to ensure that there is a strong and caring community response to the issues that matter in people's everyday lives. This can be things like ensuring that older people get a nutritious hot meal and the opportunity to socialise in a friendly environment or ensuring that parents have the chance to interact positively with their children in a community setting.

The Funding Programme ensures that Council funding is targeted at key priorities for the City that meet the enduring needs of vulnerable and hard to reach residents. For example, we invest over a £1m a year in independent advice agencies like CAB's to assist residents to pursue their legal rights especially in relation to welfare law. Our monitoring shows that there has been a substantial increase in the need for money advice as the credit crunch continues to bite. For example, in the first six months of 2007/08 Council funded advice agencies handled debt enquiries from Liverpool residents related to £4.5m of debt but in the first six months of 2008/09 this figure climbed to £6.4m.

This directory demonstrates the contribution made by the many people of the City who work in, work with or act as volunteers for voluntary organisations and community groups in Liverpool. Voluntary, Community and Statutory agencies can use the directory to assist their customers to access services or get involved in activities both as participants and volunteers. Local Councillors and residents can see what is funded in their neighbourhood.

On behalf of the City Council I would like to thank all our citizens who give of their time so freely to improve the quality of life and extend opportunities for local people through their involvement in projects funded through our Community Resources Unit.

Councillor Warren Bradley

About this Directory

This directory provides individual entries on each of the projects CRU funds arranged alphabetically under the following headings:

- Advice Centres
- Non Residential Services for Homeless People
- Capacity Building Organisations
- Community Organisations
- Services for Victims of Domestic Violence

Each entry includes details of the level of funding the Council provides through this funding programme, key contact details and a brief description of the funded service or activity.

There are 4 indexes as follows:

- An alphabetical index of all the organisations included
- A subject index about the project activities and/or the client group served
- A location index showing where each project is based
- A service delivery index indicating citywide and local projects.

If you would like a copy of this directory in a different language or format please contact the Community Resources Unit on 225 2316.

The directory was correct to the best of our knowledge in January 2009 as it went to print. An updated e-copy of the directory is available on the City Council CRU web page http://www.liverpool.gov.uk/Community_and_living/Community_Grants/index.asp

The Contact details for the Community Resources Unit are as follows:

By post:

Liverpool City Council,
Municipal Buildings,
